

How in the World

How

In the world can you expect me to
Believe

You want to put an end to war?

When

You and I know you've been fighting
And you

Plan to go and fight some more

How in the world can I believe you?

You haven't meant

A single word you've said

Why

Don't you go fight your own battles?
And let us live in peace, instead

How

In the world can you expect me to
Believe

You really want to feed the poor?

When

You and I know you've been greedy
And you

Plan to raise your prices more

How in the world can I believe you?

You haven't meant

A single word you've said

Why

Don't you go and get your fortunes
And try to share with us, instead

How

In the world can you expect me to
Believe

You want our planet safe and clean

When

You and I know you've been sloppy
And you

Plan to take away more green

How in the world can I believe you?

You haven't meant

A single word you've said

Why

Don't you tidy up your messes?
And let us make our own, instead

How

In the world can you expect me to
Believe

You really want to find a cure

When

You and I know you've been lying
And you

Plan to tell us more and more

How in the world can I believe you?

You haven't meant

A single word you've said

Why

Don't you tend to your own
sickness?

And let us heal our own, instead

Oh, how I wish I could believe

In

You

I'd rather be alive than led

Why

Don't you fess up and go cower
Empower us to live, instead

Let us live our lives unled

Let us live our lives unled

Let us live our lives unled...
