

I Will Get Over (Rock in the Road)

There's a rock in the road  
And a ditch on the side  
And a steep hill that must be climbed  
It's a big heavy load  
And it measure's too wide  
And a destination that's hard to find, but

I will get over  
I'll make it there  
There is just no getting around it  
No matter how much trouble I bear  
I will get over  
I'll make it there  
Till I climb up that mountain  
And breathe Heaven's air  
I will get over

There's a stop sign ahead  
And it's slippery when wet  
And a detour at every turn  
There's a narrowing bridge  
A long threatening ridge  
And a big-old landslide  
That bars return, but

I will get over  
I'll make it there  
Till I climb to the top of that mountain  
And I breathe Heaven's air  
I will get over  
I'll make it there  
Till that sweet day I find it  
And know that I'm there  
I will get over

There's a light out ahead  
And my engine's half dead  
On a dangerous winding curve  
Tired of fighting off sleep  
Still I know I must keep  
Pushing onward and up  
Without losing my nerve

(Repeat Chorus)

Fog and clouds folding in  
Will this road ever end  
Could it be that I've lost my way  
Almost frozen and blind  
Driving on till I find  
A way through the darkness  
To see light of day

(Repeat Chorus)

Till I climb up that mountain  
And know that I'm there  
Ooooo, I'm gonna make it  
I will  
Get over
