

Make Sure You Make It Christmas

Wrap a package of your own design
Give a present worth giving
Look for eyes that could use a surprise
Show them reasons for living

It's a season we all know
A special time to share
We're believing it might snow
And taking extra care

Make sure you make it Christmas
See to it that you sing the songs
Be certain that you give it meaning
To last the whole year long

Listen closely for wishes
Maybe you can make one come true
Find what someone is missing
And send it back from you

Make the moments the memories
The kind we'll always share
Fill the stockings with berries
And mistletoe the air

Make sure you make it Christmas
See to it that you're full of cheer
Be certain you give it meaning
And make it last all year

Cast a spell over this holiday
Magic you can make happen
All that matters is what you give away
And how you did the wrapping

It's a season we all know
A special time to share
We're all praying for fresh snow
And sleigh bells in the air

Make sure you make it Christmas
See to it that you light the lights
Be certain you make it merry
Every holiday and night

After everyone goes off to bed
Tip-toe back to the tree
Leave a note -- what an elf might have said
And sign off merrily
