

## The Road Out

Well I've been through  
The Wall of Fire  
Talked to  
My heart's desire  
Now on the road  
No heavy load  
Gonna take this journey  
Higher and higher

Gonna pick you up  
And take you with me  
No more need  
To go alone  
Gonna pick you up  
And take you with me  
Now that the road  
Now that the road  
Now that the road out  
Is known

Well I've fallen  
On ground untended  
Called out  
On knees unbended  
Out on my own  
On my way home  
Gonna get up and go  
Completely mended

Gonna pick you up  
And take you with me  
No more need  
To go alone  
Gonna pick you up  
And take you with me  
Now that the road  
Now that the road  
Now that the road  
Will carry us home

Now I've come to  
My own revival  
Rewound  
A dwindled spiral  
Breathin' fresh air  
With only one care  
Gonna reach back down  
And bring you there

Gonna pick you up  
And take you with me  
No more need  
To go alone  
Gonna pick you up  
And carry you with me  
Now that the road  
Now that the road  
Now that the way back  
Will lead us to home  
Now that the road out  
Will take us  
Back home
