

When It's Over

We've been
Fighting
Back and forth
For so very long
Battles
Feuds and wars
Where neither one
Of us belonged
Now as
Night returns
We're back inside
The same four walls
Let's lay on down
Arms around
And trust in the truce
Till our hearts get strong

When it's over
We'll pick up after
We'll mend our wounds
With tears and laughter
When it's over
We'll both be undone
And never mind
Who lost
Or who won
When
The war between us ends
You
And I
Will again
Be
Friends

You've been
Hit hard
So have I
Now we feel the pain
Wounded
Blow by blow
With losses we
Cannot sustain

Now as
Night returns
We're thrust inside
The same four walls
Let's lay on down
Arms around
And trust in the truce
Till our hearts get strong

(Repeat Chorus)

We've been
Crying
Awful loud
No one's heard a word
Vying
Mean and proud
To the point
We're both absurd
Now as
Night returns
And throws us back
Inside the same four walls
Let's lay on down
Arms around
And trust in the truce
Till our hearts get strong

When it's over
We'll pick up after
Mend our wounds
With tears and laughter
When it's over
We'll both be undone
Never mind
Who lost
Or who won
When
The war between us ends
You and I
Will again
Be
Friends
